Usage

For the prevention & treatment of deficiency syndromes of vitamins & minerals in broiler poultry.

Dosage & administration

Add 2.5 kg premix per ton of feed.

For the better mixing, first mix the premix with 10 times of granular feed and then mix with the total feed

Or as directed by registered veterinarian/poultry consultants

Contraindication

Not known.

Precaution

Once opened the packet should be used quickly. Store in a cool and dry place, away from light.
