

TMB O7

7 Organic Trace mineral enriched balance

Description

TMB™ O7 vet bolus contains 7 Organic Essential Trace Mineral Bolus for cattle. These trace minerals help farmers to improve the trace element level of their herd over critical periods of the production cycle.

Composition

Each bolus contains

Copper (As Glycinate chelate)	100 mg
Cobalt (As Cobalt Sulphate heptahydrate)	10 mg
Manganese (As Glycinate chelate)	50 mg
Zinc (As Glycinate chelate)	300 mg
Iodine (As Potassium Iodide USP)	5 mg
Iron (As Glycinate chelate)	100 mg
Selenium (As Sodium Selenite)	1 mg

Usage

- Improves milk & meat production
- Improves reproductive performance
- Improves health and vigour of cows, buffaloes, breeding bulls and ruminants
- Plays vital role in reproduction and hematopoiesis
- Helps to overcome anestrus and repeat breeding-in heifers, cows and buffaloes
- Helps to overcome poor libido and low sperm count in bulls
- Recommended also for cases of anaemia and unthriftiness

Storage

Do not store above 30°C temperature, keep away from light and wet place. Keep out of reach of children.
