

## EpheCare Vet

Dedicated for Ephemeral fever

### Description

EpheCare Vet powder is specially designed for cattle Ephemeral fever.

### Composition

Unique Combination of

Alpha – Tocopherol, 2-aminopentanedioic acid, L- Ascorbate – 2 – Phosphate, Zinc, Selenium, Iodine, Cobalt, Sulfur, Sodium, Potassium.

### Mode of Action

- **L- Ascorbate -2- Phosphate** - Increases immunity and eliminates any kind of disturbance
- **Alpha- Tcopherol and Selenium** - Acts as an anti-oxidant & increase immunity
- **Zinc** - Acts as Immuno Booster & increases immunity
- **2-aminopentanedioic acid** - Assists in protein production & increases immunity
- **Iodine**- Helps to make thyroid hormone, Contributes to bone development
- **Cobalt** - Helps in synthesis of Vitamin B<sub>12</sub>, helps in the production of red blood cells and has antibacterial and antiviral effects.
- **Sodium** - Helps to maintain water balance and essential for nerve and muscle function.
- **Sulfur** - Helps for normal growth and reproduction of bacteria in the rumen.
- **Potassium** - Helps in metabolism, muscle activity and nerve function.

### Indications & Usages

Bovine ephemeral fever is a viral disease that gets better in three days with proper management. But if proper management is not taken at the right time, it can lead to severe damage and even death of livestock.

Ephemeral fever in cattle helps in faster recovery by boosting immunity, also

- Helps to eliminate disease-causing stress
- Helps to remove food reluctance
- Helps to eliminate disease complications
- Helps to eliminate post-disease complications

### Dosage & Administration

25 grams Powder twice a day

Or, as per direction of registered Veterinarian/Consultant

### Contraindications

N/A

### Side effect

N/A

### Storage Condition

Store in dry place and away from light, Keep below or at 30<sup>0</sup>C temperature. Keep out of reach of children.

### Presentation

100 gm

**For Veterinary Use Only**
