

Polyethylene Glycol 400 USP and Propylene Glycol BP Sterile Ophthalmic Solution

# DESCRIPTION

Freshtear® is a combined preparation of polyethylene glycol & propylene glycol. This medication is clinically proven to reduce both signs and symptoms of dry, irritated eyes. The mechanism of action is thought to be due to its unique gelling and lubricating system formulated to adjust to each user's individual tear pH. When the ingredients of this eye drop combine with natural tears, a soft gel forms a network of protection over the eye surface. Since it promotes a healthy environment in eye surface, damaged surface cells of eye can repair more easily.

## INDICATIONS

Freshtear® ophthalmic solution is indicated for the temporary relief of burning and irritation due to dryness of the eye.

## DOSAGE & ADMINISTRATION

Instill 1 or 2 drops in the affected eye(s) 4 times daily or as needed.

#### CONTRAINDICATIONS

It is contraindicated in patients with known sensitivity to any ingredient in this formulation.

#### SIDE EFFECTS

Generally well tolerated. Vision may be temporarily blurred when this product is first used. This eye drop should not be used if allergic condition occurs to any ingredients of the product.

#### **USE IN PREGNANCY & LACTATION**

There are no adequate and well-controlled studies in pregnant women. This eye drop should be used during pregnancy only if the potential benefit justifies the potential risk to the fetus. Caution should be exercised when administered to a nursing woman.

# PHARMACEUTICAL PRECAUTION

Do not store above 30 °C temperature. Keep away from light and wet place. Keep out of reach of children. To prevent contamination of the dropper tip and solution, care should be taken. Don't touch the eyelids, surrounding areas, finger or other surfaces with the dropper tip of the bottle. The bottle should be tightly closed when not in use. Do not use after 4 weeks of first opening.
